4	1800	900
5-8	1400	700
9-16	1000	500
17-32	600	300

RULES FOR WORLD RANKING UPDATES

- Rankings will be updated after each tournament of the Tour

The **World Rankings of Nations** will be updated, taking into account the updated points of individual players in the World Rankings.

- they work over a 12 month period

For the **World Rankings of Nations**, the points earned at the World Cup are valid for 4 years, until the next World Cup takes place.

- the results of one World Championship Series tournament replace the results of that same tournament from the year before (the tournament venue might change but it must be played on the same table)

- note that the old results are still valid until the new tournament is over:
then the new results come into effect and replace the old ones
- if it is a first-time tournament, the results are integrated into the Rankings
- the results of a tournament that is not organized the year after cease to be valid the day after it should have taken place

You can view the WORLD RANKINGS on the ITSF website: www.table-soccer.org
